PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building production web and mobile applications using React, React Native, Next.js, TypeScript, JavaScript, Node.js, and Ruby on Rails. Delivers features end to end, from UI implementation and REST API integration to third-party services, error monitoring, and production issue resolution. Experienced with Amazon SP-API, Shopify, Stripe, and BLE integrations across e-commerce, analytics, and connected device products. Applies AI-assisted development workflows (Claude, Cursor) to accelerate prototyping, debugging, and refactoring while maintaining code quality.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Ruby, SQL, HTML5, CSS3

Frontend: React.js, Next.js, React Native, Redux, Vue.js, React Admin, Material UI, Responsive UI/UX

Backend: Node.js, Ruby on Rails, REST APIs, PostgreSQL

Integrations: Amazon SP-API, Shopify, Stripe, Google Maps, Push Notifications, BLE (Bluetooth Low Energy)

Tools and Practices: Git, Sentry, Agile delivery, error monitoring, debugging, requirement gathering, client communication

AI-Assisted Development: Claude, Cursor, coding copilots, rapid prototyping, LLM-assisted debugging and refactoring

PROFESSIONAL EXPERIENCE

Full Stack Developer

Confidential | Lahore, Pakistan (Remote) | Aug 2024 - Present

- Develop and maintain production web and mobile applications using React, React Native, Next.js, TypeScript, JavaScript, and Node.js.
- Build user-facing features and integrate REST APIs and third-party services across e-commerce, analytics, and connected device products.
- Improve application reliability through error monitoring, issue triage, and defect resolution using Sentry.
- Deliver features with a focus on maintainability, performance, and production readiness.
- Use AI coding assistants such as Claude and Cursor to accelerate prototyping, debugging, refactoring, and implementation while maintaining code quality.

Software Engineer

Jazzari | Lahore, Pakistan | Mar 2023 - Jul 2024

- Collaborated with engineers to design, build, and improve software solutions across active client projects.
- Contributed to frontend development, UI implementation, third-party integrations, and solution design across multiple products.
- Troubleshoot and resolved defects to improve product stability, usability, and client satisfaction.

SELECTED PROJECTS

1stPage

Tech: React, Next.js, Node.js, Amazon SP-API, analytics pipelines, report ingestion

- Seller intelligence platform for Amazon sellers and vendors surfacing product analytics, performance signals, and operational insights.

- Built analytics experiences that help sellers interpret product performance, sales signals, and marketplace trends.
- Supported Amazon SP-API integrations and report ingestion workflows that transform raw Amazon data into dashboards and actionable insights.

Klaro

Tech: React Native, Redux, Ruby on Rails, Shopify, Push Notifications, BLE integration

- Mobile app for monitoring humidior atmospheric conditions and sending personalized alerts based on user preferences.
- Built UI/UX flows, API integrations, and third-party integrations across connected device and e-commerce workflows.
- Contributed to backend test coverage, requirement gathering, client communication, and demo validation.

Samurai Dashboard

Tech: React, React Admin, Vue.js, Material UI, Google Maps

- Retail distribution management platform used across delivery, inventory, distribution, and admin operations in the Gulf region.
- Resolved known issues, improved UI/UX, upgraded dependencies, and delivered feature enhancements.
- Supported the Vue.js to React Admin migration as a senior contributor on platform modernization.

Vstora

Tech: React.js, Next.js, TypeScript, Node.js, Stripe, Push Notifications

- All-in-one platform for creating and managing online businesses with inventory and operational workflows.
- Worked on customer-side and dashboard experiences, API integrations, UI implementation, and third-party services.

Agency Reviews

Tech: React, Next.js, Push Notifications

- Platform connecting businesses with marketing and advertising agencies through reviews and ratings, focused on usability, trust, and clear presentation of agency performance data.

London Filmed

Tech: React, TypeScript

- Centralized platform for building, delivering, and managing event and media projects; delivered frontend implementation and user interface development.

EDUCATION

BSc in Electrical Engineering

University of Central Punjab | Lahore, Pakistan | 2013 - 2017
